Auburn University Job Description

Job Title: Tech, Aviation Maint  
Job Code: EG06  
FLSA status: Non-exempt

Level I  Grade TR13 $40,400 - $64,600  
Level II  Grade TR16 $54,100 - $92,000  
Level III  Grade TR17 $58,700 - $105,700  
Level IV  Grade TR18 $67,500 - $121,500

Job Summary
Provides general and preventative maintenance on University owned aircraft as well as other aircrafts. The levels of this position may only perform duties for which appropriate training has been provided as outlined in department training manual and guidelines provided by the Federal Aviation Association.

Essential Functions
1. Inspects university aircraft by performing very detailed inspections and preventive mechanical maintenance in accordance to the standards established by the university, federal regulations, and industry best practices.
2. Diagnoses and repairs university aircraft as needed. Determines airworthiness of aircraft and components ensuring all protocol is followed in regards to Federal Aviation regulations. Ensures timely scheduling of maintenance in order to least impact client's flight schedule and provide for high degree of aircraft availability.
3. Maintains electrical systems that include wiring, electrical connections, and the replacement of instruments.
4. Troubleshoots, inspects, tests, repairs, and services aircraft and engine systems to prepare aircraft for flight. Initiate and document any nonconforming materials, hardware, software, tools, parts, assemblies, or portions thereof, according to specifications, processes, and procedures.
5. Maintains proper and updated records required by the University and Federal Aviation Authority regulations.
6. Maintains a safe work environment abiding by all safety manuals.
7. May perform other duties as assigned.

Supervisory Responsibility
May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.

### Focus of Education

| High School Diploma or equivalent |

### Focus of Experience

<table>
<thead>
<tr>
<th>Level I - Requires 2 years of any mechanical experience.</th>
</tr>
</thead>
</table>

*Level II - requires 18 months experience in providing general and preventative maintenance to aircraft.*

*Level III - requires 30 months experience in providing general and preventative maintenance to aircraft.*

Level IV - requires 3 years experience in providing general and preventative maintenance to aircraft.

*As an alternative to this experience requirement, completion of FAA-Approved courses in an Aviation Maintenance Technician School resulting in certification. A candidate will only be awarded a certification if course work has been completed and required tests have been passed, thus the experience requirement has been met:

Level II- A candidate that does not have 18 months experience, but has attended Aviation Maintenance Tech School and has been awarded either an A or P certification, meets the experience requirement.

Level III- A candidate that does not have 30 months experience, but has attended Aviation Maintenance Tech School and has been awarded both an A and P certification, meets the experience requirement.

### Substitutions allowed for Education:

Indicated education is required; no substitutions allowed.
Auburn University Job Description

Substitutions allowed for Experience:

When a candidate has the required education, but lacks the required experience, they may normally apply additional appropriate education toward the experience requirement, at a rate of one (1) year relevant education per year of required experience.

Minimum Required Knowledge

See Job Family Levels

Certification or Licensure Requirements:

Level I - Requires no certification/license.

Level II - Requires one of the following: Airframe Certification or Powerplant Certification

Level III - requires both Airframe and Powerplant Certifications

Level IV - Requires Airframe and Powerplant certification and Inspection Authorization (IA) Certification and/or Rating Application.

Physical Requirements/ADA

Regularly involves lifting, bending or other physical exertion. Often exposed to one or more elements such as heat, cold, noise, dust, dirt, chemicals, etc., with one often to the point of being objectionable. Injuries may require professional treatment.

Externally imposed deadlines; set and revised beyond one’s control; interruptions influence priorities; difficult to anticipate nature or volume of work with certainty beyond a few days; meeting of deadlines and coordination of unrelated activities are key to position; may involve conflict-resolution or similar interactions involving emotional issues or stress on a regular basis.

Job frequently requires standing, walking, reaching, climbing or balancing, stooping/kneeling/crouching/crawling, talking, hearing, handling objects with hands, and lifting more than 100 pounds.

Job occasionally requires sitting.

Vision requirements: Ability to see information in print and/or electronically, should have depth perception and the ability to distinguish colors.
