### JOB FAMILY AND FUNCTION

Job Family:	Research
Job Function:	Lab & Field Operations

### JOB SUMMARY

Provides administrative and professional assistance for one or more special natural resource programs involved in fundamental research and management of new knowledge and concepts.

### RESPONSIBILITIES

- Oversees or conducts natural resources program research to include experiments, investigations, literature review and studies.
- Collects, analyzes, records and compiles samples and data in order to document results and observations for presentation to others.
- Assists in the development of research project proposals, plans and/or protocols.
- Assists in preparation of or prepares research results for publication or presentation at conferences and inclusion in literature reviews.
- Provides oversight and coordination of programmatic administrative functions.
- May maintain and operate scientific field equipment.
- May instruct students and supervise others' research in area of expertise and assists in outreach efforts.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

### SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May supervise employees but supervision is not the main focus of the job.
----------------------------	---
