JOB FAMILY AND FUNCTION

Job Family:	Research
Job Function:	Lab & Field Operations

JOB SUMMARY

Reporting to the Associate Dean for Research, oversees all operations of over 15 research labs for Harrison School of Pharmacy (HSOP). Responsible for identifying safety and training needs, maintaining and planning for future equipment needs and supply inventory management, maintaining certifications in compliance with regulations, and maintaining contracts with vendors in Walker Building, Pharmaceutical Research Building, Green Hall, and Biological Research Facility.

RESPONSIBILITIES

- Partners with the Associate Dean for Research and faculty to develop and implement a long term strategy for overall growth in the HSOP Research Department. Applies knowledge of the program goals and objectives, processes, organization structure, functions, procedures, and policies to evaluate operations in order to identify new equipment needs, cost effective solutions, and maintain inventory control.
- Advises on equipment evaluation and selection for lab facility requirements. Coordinates the availability, use and maintenance of lab equipment, materials and/or key inventories for strategic planning.
- Oversees inspections of labs and coordinates safety violation resolution through investigations, recommendation of corrective and preventative measures and the development/implementation of programs needed to lessen or eliminate the probability of a reoccurrence. Coordinates with Risk Management regarding inspections, findings and resolutions.
- Oversees the development, management and implementation of policies and programs related to lab safety and compliance. Advises others on issues related to fire and life safety, occupational safety, and health issues relevant to their lab operations. Works with Associate Dean for Research to create regulatory compliance policies and procedures for protection of human and animal subjects, biohazardous materials and other federally regulated compliance areas related to research and research administration.
- Contributes to the management of research lab operations budgets and coordinates with the Associate Dean for Research regarding financial decisions.
- Identifies, develops, and implements training programs related to safety and health needs of personnel and students.
- Serves as emergency contact for labs during holidays and weekends.
- Maintains contracts with vendors and builds relationships with other campus research leadership on strategic research partnerships. Coordinates with vendors when servicing or delivering equipment.
- Maintains official records and files in accordance with federal record retention documentation laws as well as institutional regulations.
- Performs other related duties as assigned.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility

May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
