Auburn University Job Description

Job Title: Mgr, NCAT Lab Research
Job Code: HC29
FLSA status: Exempt

Job Summary
Oversees the daily operation and maintenance of the National Center for Asphalt Technology (NCAT) research laboratory engaged in planning and performing analyses and tests required for research, development or quality control of processes or products.

Essential Functions
1. Plans and oversees the daily operation of a research laboratory to meet schedules, standard procedures, safety and records keeping/reporting requirements.
2. Assists with the designing and planning of experiments, tests, and laboratory sequences by providing knowledge/expertise to researchers.
3. Plans and coordinates the repair, security and maintenance of equipment, supplies and facilities of the laboratory.
4. Assists in providing NCAT training to others within the National Center for Asphalt Technology as well as at external locations.
5. Performs other related duties as assigned.

Supervisory Responsibility
Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
