Auburn University Job Description

Job Title: Sr. Analyst, Assessment
Job Code: HC34
FLSA status: Exempt

Job Summary
This position coordinates research and assessment activities to advance the mission of the unit, the institution, and its accreditation and will carry out research and assessment projects on programs and services at the divisional level and institutional levels. This position will assist in providing assessment and planning support for all of the unit.

Essential Functions

1. Provides coordination and expertise in designing, implementing, and interpreting assessment, evaluation, and research projects including, but not limited to: learning and program outcomes, student retention and success measures, integrated institutional and unit-specific research data sets, program review, satisfaction and benchmarking, participation in national assessment studies, reaffirmation (accreditation) support, research being conducted by individuals and work groups, and project-specific assessment related to the unit's or institution's strategic plan and tactical operations.

2. Manages, reviews, and oversees the administration of survey projects, using principles of research and measurement theory to develop rigorous and reliable methods that assess outcomes such as program effectiveness and student learning and development, including consideration of psychometric characteristics, qualitative/quantitative analysis, and human research integrity.

3. Provides support and expertise in guiding and mentoring staff to address their assessment and evaluation needs through development of measurable program objectives and learning outcomes, and assisting them in developing appropriate assessment plans and assisting with the review of these plans including meta-assessment.

4. Develops correspondence and reports regarding assessment activities within the unit including the contributions of the unit toward divisional and institutional goals such as student learning, retention, success, and other areas of evaluation.

5. Serves as a resource for the administration and use of assessment and planning software products.

6. Collaborates in planning and executing professional development activities for staff to enhance their assessment, evaluation, and research competencies.

7. Collaborates with leadership on unit-wide program review and strategic plan development and implementation processes.

8. May support daily assessment operations to include maintaining the unit's website and the supervision of departmental staff at the direction of or in the absence of supervisor.

9. May research and collaborate on the cultivation and submission for grants and other external funding to benefit the unit.

10. May perform other duties as assigned by supervisor.

Supervisory Responsibility
May be responsible for training, assisting or assigning tasks to others. May provide input to
