Auburn University Job Description

Job Title: Dir, Rsrch Security Compliance
Job Code: HC85
FLSA status: Exem

Job Summary
Serves as the Director for the Research Security Compliance Office, Facility Security Officer and Insider Threat Senior Official for Auburn University (AU) and the Defense Security Service (DSS). This position is responsible for the development, review, leadership and administrative oversight of federal security regulations, as well as university policies relating to classified research, export control, and unclassified controlled information.

Essential Functions

1. Acts as Facility Security Officer (FSO), Contractor Special Security Officer (CSSO), Special Security Representative (SSR), Export Control Officer (ECO), and Insider Threat Senior Official for the University.

2. Manages the facility security program to ensure compliance with federal security regulations as well as contractual agreements regarding the protection of classified, export control, insider threat, and controlled unclassified information. Ensures full compliance with all National Industrial Security Program Operating Manual (NISPOM), Intelligence Community Directive (ICD) and other counterintelligence (CI) & physical security requirements.

3. Conducts internal assessments of the AU classified, export control, insider threat, and controlled unclassified information programs between scheduled government audits ensuring that controlled research information is being properly protected in accordance with government directives.

4. Provides senior management, administrators, faculty, staff, and students with guidance and interpretation of federal security regulations and policies concerning classified, export control, insider threat, and controlled unclassified information.

5. Develops comprehensive security plans to ensure classified, export control, insider threat, and controlled unclassified information is afforded proper protection per applicable government standards.

6. Manages and oversees the maintenance of official records and security files in accordance with National Industrial Security Program Operating Manual (NISPOM) and Intelligence Community Directive (ICD) regulations; represents AU in security related matters and coordinates inspection activities with various federal agencies.

7. Oversees the implementation of the Risk Management Framework (RMF) for the approval process of Automated Information Systems (AIS) security programs and enforces operational compliance with documented security measures and controls.

8. Implements and monitors the AU Insider Threat Program (ITP). Provides oversight to the Insider Threat Networking Group (ITNG). Responds to and investigates program security infractions and violations. Reports security infractions and violations to the appropriate government agencies.
