JOB FAMILY AND FUNCTION

Job Family:	Academic Services & Administration
Job Function:	Assessment & Accreditation

JOB SUMMARY

The Coordinator of Data Collection and Analysis coordinates all aspects of the First Destination Survey follow-up process.

RESPONSIBILITIES

- Coordinates all aspects of the six-month follow-up process for the First Destination Survey at the undergraduate and graduate levels. This includes but is not limited to survey creation/administration, checking for data accuracy, following up on inconsistencies and coordinating the student research process. Runs custom queries and reports, imports/exports data from Qualtrics, manages and cleanses data, uses pivot tables to verify and analyze data at an advanced level. Communicates results with a variety of campus stakeholders as cohorts are finalized.
- Leads efforts for the dual launch of Auburn Grad Career Survey on behalf of the University. Coordinates vendor vetting and implementation of an alumni data platform. Strategizes a university-wide career outreach and reporting plan for recent alumni "still seeking" employment to connect with Auburn University career professionals based on First Destination Survey feedback.
- Serves as the liaison to the Provost Communications and Marketing team. Coordinates office-wide website updates, social media updates and create various marketing materials for the office. Additionally, coordinates the vetting and ordering of office-branded merchandise.
- Assists with office-wide event coordination and have an active role to spread office awareness at the institutional, state, regional, and national level.
- Supervises the performance of a Graduate Assistant assigned to assist with Data Collection efforts and other needs of the Office of Academic Insight.
- Serves as the Salesforce Functional Administrator for the Office of Academic Insight. Assists in developing, maintaining, and updating data elements within Salesforce with an emphasis on student outcomes. Creates and enhances reporting tools (i.e. dashboards) to provide metrics identifying potential student success factors. Assist with providing data required for Salesforce to include data that is atypical to other parts of the University. Assists with the data flow from OAI to the Data Warehouse to Salesforce.
- Performs other duties as assigned.
