JOB FAMILY AND FUNCTION

Job Family:	Health & Wellness
Job Function:	Lab

JOB SUMMARY

Coordinates professional oversight, analyses, tests, and diagnostic procedures in a medical research laboratory.

RESPONSIBILITIES

<ul style="list-style-type: none"> Develops protocols and standard operating procedures, ensuring compliance with Federal, State, University, and accrediting agency policy regarding veterinary medical laboratories. Performs and reviews quality controls in testing and decides if results are within acceptable ranges, and researches and corrects problems. Operates, calibrates, maintains, and cleans equipment used in quantitative analysis. Conducts chemical analysis of specimens, including blood, urine, and spinal fluid, to determine the presence of normal and abnormal components. Assists in training students, residents, and staff in laboratory procedures and the use of the hospital/laboratory information data management system. Trains and directs lab assistants, staff, and students on proper methods of collection of specimens and laboratory testing. Assists in the evaluation of new equipment and procedures for use in research and the clinical laboratory. Prepares technical reports on procedures and results of laboratory tests and examinations. Negotiates vendor contracts for purchasing supplies, materials, and equipment for the economic efficiency of the lab. Prepares department invoices and annual income/expense reports. Performs other duties as assigned.
