JOB SUMMARY

Performs various routine and specialized animal care duties and medical tests. This position is responsible for the monitoring and treatments for all patients admitted in hospital and may provide primary patient care under minimal supervision. As inpatient nursing staff, this position provides patient care for the most critical and emergent patients in the hospital and the demands for advanced clinical and technical proficiency are rigorous.

RESPONSIBILITIES

- Administers treatments and monitoring of patients admitted in IMC or ICU, observes and records vital data, abnormal signs, body weight, food/water intake of animals, collects and labels specimens, performs treatments, and administers medications as prescribed by primary veterinarian.
- Performs, instructs, and demonstrates advanced veterinary care techniques and procedures related to emergency and critical care medicine.
- Administers injections, anesthesia, vaccines, and various other treatments to patients.
- Assists veterinarians in the care of patients requiring advanced procedures and life-saving techniques including CPR, mechanical ventilation, and dialysis.
- Inspects facilities, equipment, and supplies daily, as well as observes health status of animals, environmental conditions, temperature, and sanitation.
- Performs emergency triage and stabilization of patients presenting through the Emergency service.
- May be responsible for, or assist with, billing clients, inputting charges, and other similar tasks.
- This position will work to provide care for patients after hours, on weekends, and holidays.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

SUPERVISORY RESPONSIBILITIES
