Auburn University Job Description

Job Title: Coord, CVM Clinical Trials
Job Code: IC29
FLSA status: Exempt

Job Summary
Under general supervision, supports the clinical faculty primary investigators of the Auburn University College of Veterinary Medicine Department of Clinical Sciences in pursuance of clinical research by coordinating clinical appointments, maintaining records, and maintaining research compliance.

Essential Functions

1. Coordinates clinical research studies involving animals. Responsible for coordinating clinical appointments of enrolled client-owned animals for treatment administration and assisting with clinical research studies involving animals. This includes, but is not limited to, patient intake, diagnostic testing, arranging housing, sample acquisition, sample processing and storage, and consultation with services within the Veterinary Teaching Hospitals. Completion of clinical appointments may also involve development of discharging information and communication with owners of enrolled patients.

2. Performs data entry and assists with analysis. Responsible for creating and maintaining spreadsheets for any clinical research study and obtaining and evaluating preliminary patient data for enrollment into a trial. Records and maintains all study data as dictated by the study/research. Assists with statistical analysis of data and provides summary reports and timeline data to investigators and sponsors.

3. Recruits client-owned animals for study enrollment. Serves as the initial contact with referring veterinarians and owners to determine patient eligibility for ongoing research trials. Communicates the purpose of the research, allowable costs, risks, outcome measure, and expectations during recruitment and follow-up of enrolled patients will be essential roles of the coordinator, with participation and oversight by the investigating faculty.

4. Ensures individual investigators and investigations meet research compliance and budget requirements. Assists investigators with development of client research review committee, IACUC, IRB, and client consent documents. Prepares annual reports to IACUC and other regulatory agencies and works with occupational health and safety to confirm training requirements for all investigators and support personnel. Tracks and submits invoices and reviews accounting reports for accuracy.

5. Develops and maintains promotional information (including but not limited to AU CVM clinical trial website, e-blasts, faxes, social media, mailings) for clinical trial recruitment.

6. Assists with development of new clinical research and clinical trial proposals. Assists with literature search, development of protocols, and formulates budgets for sponsored research contracts.

7. Performs other related duties as assigned.

Supervisory Responsibility
May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
