JOB FAMILY AND FUNCTION

Job Family:	Veterinary & Animal Care
Job Function:	Animal Care

JOB SUMMARY

As a working leader, this position will manage technical staff and operations in the Equine and Food Animal Units. Assists with student teaching, assists veterinarians' treatment, research, projects, surgery, restraint, sample collection in animals, and assists in emergency and critical care of patients.

RESPONSIBILITIES

- Manages the Food Animal and Equine business in the hospital including ordering, inventory, coordination of appointments, client bill maintenance, daily walk-throughs of dairy operations, coordination and scheduling use of hospital facilities for routine herd health maintenance, and general day-to-day business.
- Oversees technical staff with daily inspections including status of animals, environmental conditions, facilities, and equipment. Ensures that employees and students are properly caring for patients and administering proper treatment.
- Coordinates and communicates with patient care team staff to review daily work and additional support needed for patients/areas.
- Facilitates veterinary diagnostics and treatments in a safe manner by administering medications and vaccinations, assisting with treatments, animal restraint, procedure preparation, and other medical needs for appointments, in-house patients, and university-owned animals.
- Assists clinicians with student examination, treatment, research, projects, surgery, restraint, sample collection in animals, and assists in emergency and critical care of patients.
- Instructs clinical students on the care of patients.
- Observes, records, and collects vital data of patients, performs routine laboratory examinations including parasitology, bacteriology, hematology, and serology.
- Discusses and manages items that are revolving in nature such as plasma bank, animal restraint equipment, events that require advanced planning, etc.
- Schedules hospital facilities for providing routine herd health maintenance and possibly teaching labs/outreach.
- Collaborates with the hospital administrator, chief veterinary nursing officer and section head for process improvement within the large animal hospital.
- Performs other duties as assigned.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.
