JOB FAMILY AND FUNCTION

Job Family:	Information Technology
Job Function:	Applications Development

JOB SUMMARY

Under minimal supervision, serves as a technical lead and often as a business expert assisting clients in defining needs and formulates and defines system scope and objectives needed to fit those needs. Monitors, defines, creates, and modifies procedures to solve highly complex and/or unprecedented problems considering resource capacity and limitations, operating time, and form of desired results. Responsible for program design, coding, testing, debugging, and documentation.

RESPONSIBILITIES

- Reviews, modifies, and writes complex program code and comprehensive application systems for the implementation of business requirements. Provides technical oversight and coordination for coding in accordance with best practices for associated programming languages, applications, and/or systems.
- Provides technical oversight for the application of and compliance with technical standards such as code reviews, unit testing, and security reviews.
- Prepares and reviews detailed specifications from which programs will be written in order to ensure compliance with business and technical requirements.
- Plans, leads, and implements the program design, coding, testing, debugging, documentation, and/or support of application software.
- Coordinates and participates in the evaluation of software products and programming languages. Makes recommendations based on the evaluation of software products and programming languages for their applicability to the system or project.
- Conducts quality assurance reviews to ensure that programs, applications, and systems meet business and technical requirements. Provides work guidance to other staff members.
- May lead the work of other Applications Systems personnel or assigned project team members.
- May serve as a lead within the team, coordinating the work of others and serving as the primary contact.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
----------------------------	---
