JOB FAMILY AND FUNCTION

Job Family:	Information Technology
Job Function:	IT User Support

JOB SUMMARY

Under close supervision, provides consultative and technical support services to campus constituents to ensure timely problem resolution, system/data access, and optimal system performance. Provides support for desktop, mobile computing, and client/server technology to include, but not limited to, installing and configuring computer hardware for clients, installing and configuring software on computers, troubleshooting technology problems, and recommending hardware and software appropriate for its intended use. Provides consulting on routine technology solutions.

RESPONSIBILITIES

- Provides high-quality customer service through courteous and professional communication with guidance from more senior team members. Builds and maintains effective relationships with consistent follow-up and documentation.
- Provides technical support to constituents to resolve first-tier common desktop software, application, and communication issues in an efficient and timely manner. Accurately documents request history and routes more complex second- and third-tier requests to the appropriate technical personnel.
- Provides timely resolution of problem or escalation on behalf of the client.
- Provides basic consultation, support, and instruction for clients.
- Assists senior employees with the implementation of standard operating procedures and customer service guidelines.
- May assist senior employees with the development of new applications, resources, and tools.
- Performs other related duties as assigned by the supervisor.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
----------------------------	---
