**JOB FAMILY AND FUNCTION**

Job Family:	Information Technology
Job Function:	IT User Support

**JOB SUMMARY**

Under minimal supervision, provides telecommunications consultative and technical support services to campus constituents to ensure timely service activation, problem resolution, and optimal system/service performance. Provides advanced support for desktop telephones and soft clients running on desktop computers, cellular telephones and fixed-mobile telephony applications running on cellular telephones, and enterprise voice messaging services. Researches, consults, implements, and supports custom telecommunications technology solutions requiring a great amount of evaluation, originality, or ingenuity. Mentors and leads junior employees.

**RESPONSIBILITIES**

- Provides high-quality customer service through courteous and professional communication. Supports and maintains effective relationships with consistent follow-up and documentation.
- Provisions telephone services, including voice messaging and cellular voice/data services, using proprietary systems software and vendor portals. Provides advanced technical support to the University community to resolve complex first- and second-tier telephone service and communication issues in an efficient and timely manner. Thoroughly and accurately documents issues and request history and escalates advanced second- and third- tier issues and requests to the appropriate technical personnel.
- Provides timely resolution of problem or escalation on behalf of the client by maintaining exceptional working relationships with Telecom Engineers, Network Engineers, prime telecom contractor, vendors, and other OIT professionals. Independently engages distributed IT professionals on IT/telecom business processes/needs in order to develop solutions.
- Provides complex consultation, support, and instruction for clients. Supports the most critical clients and services.
- Updates telemanagement system and E911 databases reflecting telephone service changes.
- Audits and tracks telecom vendor bills for correctness of services and pricing, to uncover any fraudulent use, and for assessing service capacity for optimal efficiency.
- Develops standard operating procedures and customer service guidelines. May provide input into hardware and software evaluation or testing as part of the development of new initiatives being undertaken by OIT Telecommunications.
- Serves as a team leader on complex issues and in general, guiding and supporting junior team members, coordinating the work of others and serving as the primary contact.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor.

Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.
