JOB FAMILY AND FUNCTION

Job Family:	Information Technology
Job Function:	IT Leadership

JOB SUMMARY

Provides overall vision, leadership, and management of all IT functions in OIT, college, school, or other major unit (e.g. library, finance) in support of instruction, research, outreach, and administrative needs. This includes planning, sourcing, and support of information technology as defined by the overall IT strategy of the University (Office of the CIO) and the unit. This position works per the direction of the unit's senior leadership team. Consults with senior leadership to understand needs that can be supported through technology, and recommends appropriate technology strategies. Makes IT budget recommendations for the unit. Oversees procurement and selection of information technology resources. Recommends policies and procedures for information technology and services within the unit.

RESPONSIBILITIES

- Works with senior leadership to understand instruction, research, outreach, and administrative needs that can be supported through information technology and services and prepares written proposals for significant initiatives.
- Maintains high level of service quality for end users of information technology, monitors performance against standards or service level agreements, and initiates corrective action with internal or external service providers when appropriate.
- Recommends or manages budgets and oversees procurement and selection of information technology resources ensuring compliance with University IT standards.
- Directs technology development, working with IT architectures, hardware and software platforms, networking, system administration, information security, specialized applications, and web or multimedia technologies. Ensures compliance with University IT policies and procedures.
- Directs IT projects ensuring priorities, planning, documentation and implementation aligns with Information Technology's strategic goals, IT policies and procedures.
- Recommends or establishes policies and procedures for information technology and services within the unit, covering project management, unit-level procurement, and issue tracking.
- Develops and mentors staff. Works to create depth in leadership, management and technical skills. Evaluates associate directors and managers, assists and reviews managers' evaluation of team members, makes recommendations, and reviews subordinate's recommendations for promotions.
- Complies with all University IT policies and procedures. Establishes and administers unit standards, policies, procedures and methodologies for performing tasks. Reviews policies and procedures subordinates have established for their areas ensuring compliance with overarching IT policies.
- Provides or coordinates on-call support for designated systems or services.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility Supervises others with full supervisory responsibility.
