### JOB FAMILY AND FUNCTION

Job Family:	Information Technology
Job Function:	Software Asset Management

### JOB SUMMARY

The Lead Analyst, IT Vendor/Software Assets provides analysis, reporting, support, and consultation with OIT leadership, campus IT leadership, and OIT software asset management team. This role encompasses all processes associated with the life-cycle of software license management currently under the management of the OIT Vendor /Software team and any future software assets to be added. This role includes maintaining an awareness and understanding of relevant software asset management industry trends, best practices and regulations, including their potential impact, and formulates appropriate methodologies and strategies that benefit the organization.

### RESPONSIBILITIES

- Through self or others, translates technical software requirements into business terms and creates and maintains appropriate documentation of software transactions, entitlements, maintenance subscriptions, and other licensing information. Reviews contracts, works in online systems provided by vendors, and provides customer support. Works closely with the Procurement Office on contract evaluations and proposals.
- Understands the strategic goals, technical requirements, deadlines, and budgetary limitations of the IT organization and works directly with software vendors to procure and/or license software packages and configurations that meet the needs of the organization.
- Leads and coordinates the efforts of the OIT Vendor/Software asset unit, including the supervision, development, and training of subordinate employees.
- Develops and supports software license asset management methodologies.
- Advises the CIO, Executive Director, and Director of Administration by providing financial details related to planned and active contracts.
- Builds strong customer relationships and delivers customer-centric solutions.
- May serve as a lead within the team, coordinating the work of others and serving as the primary contact. Performs other related duties as assigned by the supervisor.

### SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.
----------------------------	---
