Auburn University Job Description

Job Title:                  Supv, Automotive Shop                     Job Family:  No Family
Job Code:                  NB31                                                  Grade 34:  $45,100 - $75,100
FLSA status:               Non-exempt

Job Summary
Reporting to the Manager of Facilities Shops Maintenance, supervises and leads the daily operations of the Automotive Shop. Responsible for organizing and overseeing the successful execution of automotive projects, services, and repairs for all University vehicles.

Essential Functions

1. Coordinates the work and responsibilities of the automotive mechanics by scheduling and overseeing work assignments, inspecting automotive repairs and diagnoses, and ensuring that quality work is completed in a safe and timely manner.
2. Ensures all work performed by assigned staff and contractors complies with project requirements, applicable regulatory agencies, contract requirements, university standards, and organizational goals.
3. Responsible for planning and overseeing the training and certification of all staff. Leads the recruitment and selection of staff and conducts performance review evaluations. Assists in resolving employee relations issues.
4. Maintains timely and accurate data to track work activities, supplies, and equipment. Reviews data for accuracy and provides analysis, reports, and recommendations for clients and senior leadership.
5. Responsible for the Automotive Shop's budget coordination. Oversees all shop purchases and material requests.
6. Serves as technical subject matter expert, and advises all automotive mechanics on diagnostics, maintenance, and installations. As needed, performs all essential functions of an Automotive Mechanic including, but not limited to, maintenance repair activities, component replacements, advanced-level diagnostics, and electrical/computer system repairs.
7. Coordinates with other shops, departments, and/or outside contractors to ensure appropriate support for each job. Communicates with stakeholders to provide updates, answer questions, resolve issues, and ensure the efficient completion of projects and jobs.
8. Assists in developing procedures and operating instructions for safe, accurate, and quality work performance and status reporting. Communicates with subordinate staff to ensure that policies and procedures are understood and maintained.
9. Responsible for meeting and maintaining all training and certification requirements as outlined by the department's training and credentialing requirements.
10. May perform other related duties as assigned by the Manager, Facilities Shops Maintenance.

Supervisory Responsibility
Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
