Auburn University Job Description

Job Title: Asst Supv, Elec Distribution
Job Code: NB94
FLSA status: Non-exempt
Grade 34: $45,100 - $75,100
Job Family: No Family

Job Summary
Reporting to the Supervisor, Electrical Distribution, assists in the daily operations and overall management of the Electrical Distribution staff, including execution of electrical distribution work assignments and projects. Serves as the crew lead in the absence of the supervisor.

Essential Functions
1. Assists the Supervisor, Electrical Distribution with oversight of the electrical distribution crew to assure that all work is performed in a safe and efficient manner while staying in compliance with all policies, procedures, and guidelines as appropriate.
2. Performs all essential functions of Electrical Distribution Lineman III including but not limited to installing, maintaining, operating, and repairing electrical distribution systems.
3. Assists in planning and conducting of the daily work of the Electrical Distribution area in support of the operation, maintenance, and modification of the electrical distributions system.
4. Assists with administrative functions of the office including payroll, work management system, human resources functions, safety, and other compliance-related functions, as well as assists in maintaining all system records and documentation that helps support configurations management, performance metrics, and system status information.
5. Responds to electrical system outage alerts and resolves issues. Helps coordinates crews and other support needs to perform these tasks in a safe manner.
6. Assists in monitoring daily operations of the electrical distribution systems using data available in the Supervisory Control and Data Acquisition (SCADA) system, automatic meter reading, and other electronic systems. Reports abnormal conditions as appropriate.
7. Assists with the training and development needs of the electrical distribution crew members.
8. Assists in maintaining supply of equipment and other resources necessary to respond to anticipated work events and assures all activities are conducted and documented appropriately.
9. Performs plan reviews and participates in design development meetings for building projects and electrical distribution infrastructure.

Supervisory Responsibility
May supervise employees but supervision is not the main focus of the job.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
