Auburn University Job Description

Job Title: Asst Supv, Elec Distribution
Job Code: NB94
FLSA status: Non-exempt

Job Summary
Reporting to the Supervisor, Electrical Distribution, assists in the daily oversight and coordination of work performed by the Electrical Distribution staff including the operation, maintenance, modification, protection, and surveillance of the primary electrical distribution system (substations, distribution infrastructure, transformers, switches and relays, protection devices, metering, monitoring, and controls) and traffic control equipment. Provides on-site supervision and technical direction.

Essential Functions

1. Assists the Supervisor, Electrical Distribution with oversight of the Electrical Distribution staff to ensure that all work is performed in a safe and efficient manner and in compliance with all applicable laws, standards, policies, and guidelines. Assists in the development of procedures and operating instructions for safe, accurate, and quality work performance.

2. Performs all essential functions of an Electrical Distribution Lineman III including, but not limited to, performing highly complex installations, preventive maintenance, and repairs on electrical distribution and traffic signal control systems. Writes, conducts, and/or approves advanced switching orders.

3. Plans and coordinates the daily tasks performed by the Electrical Distribution Lineman in support of the effective operation, maintenance, and modification of the University’s electrical distribution system. Develops, organizes, and leads preventative maintenance activities to improve electrical system reliability and performance.

4. Assists with administrative functions of the office including time keeping, safety, budget coordination, and compliance-related functions. Assists in maintaining all system records and documentation to support configurations management, performance metrics, and system status information.

5. Leads and ensures the timely response to electrical system outages. Helps coordinate crews and other support needed to identify and troubleshoot issues, restore services in a timely manner, and minimize campus disruption.

6. Oversees the daily monitoring of the electrical distribution systems using data available in the Supervisory Control and Data Acquisition (SCADA) system, automatic meter reading, and other electronic systems. Reports abnormal conditions, identifies appropriate solutions, and develops repair plans.

7. Assists with the training and development needs of the electrical distribution staff members.

8. Assists in ensuring the proper inventory supply and maintenance of equipment and other resources necessary to respond to anticipated work events; ensures all related activities are conducted and documented appropriately.

9. Performs plan reviews and participates in design development meetings for building projects and electrical distribution infrastructure. Assists in providing recommendations for system modification and expansions to meet changing load requirements of the campus. Inspects contractor-installed electrical distribution system additions or modifications to ensure compliance with engineering designs, codes, and standards as well as Auburn University standards.

10. Assists with ensuring that timely and accurate data is maintained in the work management system to provide proper reporting for clients and senior leadership within Facilities and the University.
Auburn University Job Description

Meets with clients, responds to needs and questions, and collaborate with supervisor to ensure support can be provided.

11. Required to serve in an on-call status and remain work-ready when scheduled for an on-call period or rotation. Work-ready status requires an employee to return to the worksite within forty-five minutes while being physically and mentally unimpaired and fit for duty, able to safely perform all essential job functions with no risk to self, coworkers, students, public, or property.

Supervisory Responsibility

May supervise employees but supervision is not the main focus of the job.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
