JOB FAMILY AND FUNCTION

Job Family:	Facilities, Maintenance, & Operations
Job Function:	Design & Construction

JOB SUMMARY

Manages, coordinates, oversees, and leads the construction of Auburn University projects to include the repair, renovation, and/or new construction of facilities.

RESPONSIBILITIES

- Assists in managing the construction of multiple simultaneous projects and in executing the construction portion of the university's Fiscal Year Project Execution Plan.
- Ensures construction projects are executed safely, on time, within budget, and in a high quality manner.
- Assists in the preparation of construction project updates to be utilized by University officials, clients, and others within Facilities.
- Provides technical oversight and management of all construction projects.
- Assists in developing effective and efficient policies, processes, and procedures for the execution of construction contracts and construction management consultant contracts.
- Ensures consultants and construction contracts are appropriately managed in order to meet client requirements.
- Assists in the management of the annual operation budget development process for the division.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	Supervises others with full supervisory responsibility.
