Auburn University Job Description

Job Title: University Arborist  
Job Code: NC82  
FLSA status: Exempt  
Job Family: No Family  
Grade 34: $45,100 - $75,100

Job Summary
Oversees the health, growth, and care of all trees on Auburn University's campus by managing the impact of development in accordance with the Design and Construction Standards and strategizing future tree expansion in accordance with the Landscape Master Plan (LMP). Assigns and trains employees in all aspects of tree care using proper arboriculture techniques in order to maintain University grounds as a safe atmosphere for students, faculty, staff, and the general public.

Essential Functions
1. Oversees tree care and tree maintenance for all of Landscape Services' properties by supervising and performing work with the in-house tree care team to include pruning, trimming, watering, planting, and cabling trees in conformance with specific growth patterns and care requirements and performing soil remediation to ensure Landscape Services' properties are kept safe and presentable at all times.

2. Updates and manages the campus tree inventory to include new plantings, existing trees, and removal of trees using multiple methods of tracking. Assesses all core campus trees for risk and submits tree removal forms to Facilities personnel and the Tree Preservation Committee to ensure University properties and the campus tree inventory are properly maintained.

3. Reviews plans and advises designers and engineers on tree protection needs for projects and consults with Project Managers to ensure contractors are adhering to tree protection guidelines. Collaborates with the Office of the University Architect to develop annual planting projects for all University properties.

4. Leads the Campus Tree Advisory Committee to establish goals and gather information to aid in the Urban Forest Management Plan and serves as the liaison between the Office of the University Architect, Landscape Services, and the Tree Preservation Committee regarding the health and care for campus trees.

5. Develops and implements an annual tree pruning program. Responsible for managing tree service contracts for removals, pruning, stump grinding, and storm clean-up outside of the expertise of Landscape Services to ensure all University properties are kept safe and presentable in terms of tree care at all times.

6. Ensures the effective management of employees including hiring, orientation, training, mentoring, supervising, evaluating, and supporting ongoing professional development to promote well-informed and motivated staff and excellent customer service at all levels.

7. Oversees the maintenance and minor repair of tree care equipment including, but not limited to, bucket trucks, dump trucks, backhoes, water vehicles, brush chippers, and chainsaws.

8. Communicates with campus constituents and various other stakeholders to keep them informed of work progress and answer questions regarding projects or other matters concerning University trees.

9. Plans ceremony and coordinates volunteers and groups outside the University for the observance of National Arbor Day.

10. Performs other related duties as assigned by the Landscape Superintendent.
Auburn University Job Description

Supervisory Responsibility
Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
