Auburn University Job Description

Job Title: Asst Dir, Utilities & Energy
Job Code: NC83
FLSA status: Exempt

Job Summary
Reporting to the Director of Utilities & Energy and working in conjunction with the Utilities Engineer serves as the leader of the day-to-day operations of the University’s Utilities & Energy department. Serves as the leader of the Electrical Distribution and Utility Services groups for the Utilities & Energy directorate and supports the Facilities Management organization responsible for maintaining the associated utility infrastructure that serves over 250 campus facilities. This position plays a key role in ensuring the successful maintenance and operation of the campus utility systems to result in the reliable and efficient delivery of resources in support of the University's academic, research, and outreach mission.

Essential Functions

1. Develops plans, programs, and processes to maintain the electrical distribution systems across campus. Develops key performance indicators to measure system reliability and provides data to forecast needed infrastructure improvements.

2. Develops plans, programs, and processes to maintain the natural gas, domestic water, storm sewer, and sanitary sewer systems across campus. Develops key performance indicators to measure system reliability and provides data to forecast needed infrastructure improvements.

3. Oversees the preventative maintenance program of the Electrical Distribution and Utility Services groups to include the planning and execution of all work, development and implementation of program improvements, and project reporting.

4. Assists in managing projects (R&R, Major Alterations and Repair, etc.) through the entire project process. Ensures all projects are meeting established milestones to completion.

5. Serves as lead for day-to-day oversight of Utilities & Energy activities.

6. Serves as lead for Utilities & Energy in all construction projects on campus.

7. Assists in conducting facilities and equipment assessments and creates and maintains lists of all those with deficiencies, prioritized by severity, criticality, cost, and impact on operations.

8. Develops and manages assigned operating budget to ensure labor, material, overtime, and contract expenditures are maintained as allowed.

9. Participates in design development and review of plans for new construction projects to uphold utility installation and building energy systems standards.

10. Assesses and enforces the safety programs as required to ensure the safety of employees in all areas.

11. Ensures the professional growth of each direct report and team member through performance coaching, goal setting, and routine talent development dialogue ensuring scheduling and attendance at training and educational opportunities. Develops a culture of inclusion, diversity, and teamwork that manifests itself in a positive, accountable, and continuously improving work group.

12. Manages assigned staff and participates in recruitment of positions. Writes and conducts employee performance evaluations, identifies development needs, and participates in resolving employee relations issues.

13. May perform other related duties as assigned.
Auburn University Job Description
