JOB FAMILY AND FUNCTION

Job Family:	Facilities, Maintenance, & Operations
Job Function:	Facilities Services

JOB SUMMARY

The Supervisor, Zone Maintenance & Housing Operations is directly responsible for supervising a team of skilled trades personnel performing the daily maintenance efforts of assigned Housing properties. Responsible for the development, execution, and oversight of all maintenance activities required to maintain assigned Housing properties to a level of care that matches the expectations of clients and leadership.

RESPONSIBILITIES

- Leads a team of multi-trade technicians responsible for all daily maintenance activities within the assigned facilities, including preventive maintenance, corrective maintenance, and assigned maintenance projects. Supervises, organizes, assigns, and directs the efficient work activities of assigned staff. Evaluates the daily activities of staff as it relates to the maintenance, repair, and operations of all mechanical equipment, building systems, Residential Housing facilities, and associated equipment. Ensures quality and timely responsiveness of assigned maintenance activities, including after-hours response to emergency calls.
- Develops, implements, and maintains comprehensive building maintenance and mechanical service plans for all maintained Housing facilities. Tracks and analyzes the quality and timeliness of all operations ensuring that all services are completed accurately. Ensures all work conducted by Property Management trades personnel, contracted service providers, and others meets all quality standards and expectations set by the department and Auburn University.
- Provides information to Property Management leadership to be used in budgetary planning for mechanical activities across all Property Management maintained facilities, including ensuring vendor contracts following all university and state financial guidelines.
- Ensures the safe and timely execution of all work performed by assigned trades personnel. Works with leadership to develop policies and procedures designed to increase production, efficiency, and effectiveness to improve the quality of facilities served. Ensures timely and accurate data entry into the work management system to provide proper reporting for clients and Property Management leadership. Tracks the status of work accomplishments, analyzes data sets and prepares reports.
- Oversees building automation systems in all managed properties ensuring proper operation, maintenance, and repairs. Monitors building automation systems to ensure all building systems are operated most economically, emphasizing lowering energy consumption and utility cost savings.
- Leads the recruitment of positions including reviewing resumes, participating in interviews, and conducting performance review evaluations.
- Works directly with Property Management leadership to develop, identify, and plan specific renovation and repair activities required throughout all maintained facilities including timeline, design function, material selection, and project budgets.

RESPONSIBILITIES

- Coordinates with other Property Management departments, maintenance teams, zones, shops, and outside contractors ensuring that maintenance activities are coordinated and communicated. Communicates with stakeholders to maintain awareness of activities, maximize efficiencies, answer questions, and resolve issues..
