Auburn University Job Description

Job Title: Tech II, Sheet Metal
Job Code: ND25
FLSA status: Non-exempt

Job Summary
Reporting to the Fabrication Supervisor, responsible for designing, fabricating and installing sheet metal and other metal projects for University HVAC, roof, drainage, and mechanical systems and equipment.

Essential Functions

1. Designs, fabricates, and installs sheet metal for roof, drainage, and other systems in buildings throughout campus. Fabricates and installs ductwork for heating and cooling systems.
2. Inspects project sites, takes measurements, and orders needed materials necessary for project completion.
3. Fabricates metal components for a variety of items such as plates, grates, brackets, gutters, downspouts, and collector heads. Metals include, but are not limited to, galvanized sheet metal, copper sheet metal, diamond plates, roof flashing, and various gauges of metal and sheet metal.
4. Operates a variety of equipment to bend, break, and solder metal. Safely operates hydraulic and manual metal brake, digital hydraulic sheer, flagler, roller, s-lock form, and iron worker.
5. May perform welding of different metals and materials.
6. May perform other related duties as assigned by the Fabrication Supervisor.

Supervisory Responsibility
May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
