Auburn University Job Description

Job Title: Automotive Mechanic II
Job Code: ND43
FLSA status: Non-exempt

Under general supervision, performs a variety of intermediate mechanical services and repairs on university vehicles.

Essential Functions

1. Provides maintenance services, diagnostics, and component repairs and replacements on university vehicles including, but not limited to, brakes; suspensions; hoses; alternators; and electrical, ignition, and exhaust systems.
2. Performs maintenance and repairs on small engines including, but not limited to, weed eaters, lawn mowers, and leaf blowers.
3. Provides maintenance and repairs to slow moving vehicles (SMV) such as golf carts, UTV’s, and electric carts.
4. Performs repairs on heavy mechanical equipment including, but not limited to, dump trucks and personnel lifts.
5. Responsible for responding to campus-wide emergency service calls.
6. May weld and fabricate parts including, but not limited to, brackets, braces, and shields to support automotive repair work.
7. Responsible for meeting and maintaining all training and certification requirements as outlined by the department’s training and credentialing requirements.
8. May perform other related duties as assigned.

Supervisory Responsibility

May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
