

Department of Mathematics and Statistics Long Range Schedule

2019-2020

1. Courses that are listed as 3 credit hours meet MWF for 50 minutes or TR for 75 minutes. Courses that are listed as 4 credit hours meet four days per week for 50 minutes each day, or two days with 75 minutes of lectures plus two days with 50 minutes of recitations. The final format is dependent on available classroom space. Courses marked (VAR) are variable credit courses. Specific faculty assignments are subject to change.
2. In the summer 10-week session. Courses that are listed as 3 credit hours meet MWF for 75 minutes. Courses that are listed as 4 credit hours meet four days a week for 75 minutes. In the summer 5-week session. Courses that are listed as 3 credit hours meet MTWRF for 90 minutes. Courses that are listed as 4 credit hours meet MTWRF for 90 minutes with two extra meetings per week. The time for the extra two meetings is tentative and is listed in parenthesis after the main meeting time.
3. Courses not being offered are listed as N/A; courses offered conditional on departmental decision are listed as TBD.
4. Outreach courses are indicated by (OR). Courses in lecture recitation format are indicated by (LR) or (R).
5. The schedule for 5000, 6000 and 7000 level courses are tentative. Final offerings at these levels will depend on anticipated student needs. Summer offerings of courses are contingent on enrollment.
6. At the 1000 - 2000 level additional times to those listed are often available according to enrollment needs and according to staffing and space availability.
