

Dear Sir or Madam,

The National Healthcareer Association (NHA) is the nation's largest health career certification provider. NHA is a company within Ascend Learning, a leader in providing technology-based educational, assessment, testing and certification solutions for healthcare and other vocational fields. Over the last 25 years, NHA has certified more than 500,000 allied health professionals working directly with schools and employers to achieve their certification goals. Today, there's more demand than ever for highly skilled frontline practitioners. NHA is meeting that demand by offering exams accredited by The National Commission for Certifying Agencies (NCCA). It is our belief that together, NHA, schools and educators, providers and allied health practitioners can transform healthcare through education, training and certification, with the goal of consistently improving patient outcomes.

As part of this effort, NHA has partnered with Auburn University, through CCI, to ensure students who complete their healthcare education programs are eligible to sit for the corresponding NHA exam. Students who successfully complete the following Auburn University online healthcare technician programs will have the opportunity to earn NHA certification as follows:

Auburn University Healthcare Program	NHA Exam & Certification
EKG Technician Program	EKG Technician Certification (CET)
Medical Billing & Coding with Medical Administration	Billing and Coding Specialist Certification (CBCS) Medical Administrative Assistant Certification (CMAA)
Clinical Medical Assistant	Certified Clinical Medical Assistant (CCMA)
Medical Billing and Coding	Billing and Coding Specialist Certification (CBCS)
Medical Administrative Assistant	Medical Administrative Assistant Certification (CMAA)
Physician Office Assistant Professional with Electronic Health Records Management	Medical Administrative Assistant Certification (CMAA) Electronic Health Record Specialist Certification (CEHRS™)
Electronic Health Records Management	Electronic Health Record Specialist Certification (CEHRS™)
Phlebotomy Technician	Phlebotomy Technician Certification (CPT)
Pharmacy Technician Program	Pharmacy Technician Certification (CPhT)
Pharmacy Technician Program with Medical Administration	Pharmacy Technician Certification (CPhT) Medical Administrative Assistant Certification (CMAA)

Certification in these fields demonstrates to employers that students have gained the necessary competencies and skills to be successful on the job. Should you have any questions about the certifications listed above, please don't hesitate to reach out to me at your convenience.

Kind Regards,

Joanne DiChiara
 Certification Specialist
