

## AREC Instructor Training – February 26, 2016

As Alabama's examination provider, AMP's Program Director, Danny Breidenbach, will provide information on the most recent examination changes. Every five years, AMP provides a job analysis survey and uses the feedback from the survey to make appropriate changes to the licensing examination. A job analysis survey was advertised in 2015 and the results were used to update the examination. The examination outline will be discussed as well as examination items. This is an opportunity for prelicense instructors to hear about the examination from the source and ask any needed questions to make sure the information being shared in salesperson

prelicense courses is current and appropriate.
